REPORT OF THE COLLEGE COMMITTEE.

STUDENTS AND FEES.

SESSION 1923–1924.

The number of Students, other than Evening and Vacation Students, who registered during the Session 1923-24 was 2285, being a decrease of 10 as compared with the preceding Session. The number of Evening Students was 392, being a decrease of 90 as compared with the previous Session; 158 Students attended the Vacation Courses, as compared with 228 in the previous Session. Adding these together, the total is 2835, being a decrease of 170 on the previous year. The Students were distributed as follows:—

	Men.	Women.	Total.
I. Faculty of Arts			
(*a*) General	235	339	574
(*b*) Department of Fine Arts	86	237	323
(*c*) School of Architecture	44	15	59
(*d*) School of Librarianship	25	55	80
(*e*) School of Journalism	5	12	17
II. Faculty of Science	200	140	340
III. Faculty of Medical Sciences ..	167	50	217
IV. Faculty of Engineering	118	2	120
V. Faculty of Laws	35	7	42
VI. Post-Graduate and Research ..	381	132	513
Total	1296	989	2285
VII. Evening:			
Arts	171	221	392
VIII. Vacation	66	92	158
Grand total	1533	1302	2835

339 students of other Colleges attended Intercollegiate Lectures.

There were 1696 Students registered, for Degrees (1175) and Diplomas (521).

The geographical districts from which the Students came are given in Appendix I. (see p. 65).

The total fees available for the service of the Session 1923–24 amounted to £59,198 3*s.* 11*d.*, a decrease of £4,628 7*s.* 7*d.* on the previous Session.

THE CURRENT SESSION (1924–25).

The number of Students who have completed their registration and paid fees up to January 31st, 1925, is 2555, as compared with 2399 at the corresponding date in 1924.

The fee revenue (including fees of London County Council and Board of Education Students) to January 31st, 1925, amounts to £54,487, showing an increase of £1,160 as compared with the corresponding date in 1924.

GENERAL FINANCES.

Financial Year 1923–24.

The Accounts for the year ended July 31st, 1924, are appended to this Report (Appendix II., pp. 67–83).

College Establishment Income and Expenditure Account.

Income.—The ordinary income amounted to £168,943 7*s.* 8*d.* as compared with £169,862 1*s.* 11*d.* in 1922–23, a decrease of £918 14s. 3*d.* This position is due, on the one hand, to a decline in the fee revenue, amounting to £4,628; and, on the other hand, to additional appropriation (£1,994) from the income of the Rockefeller Endowment Fund, to meet the increased expenditure on Academic Salaries, that followed upon the opening of the new buildings; to a grant of £500 for Scandinavian Studies from the London County Council; and to the introduction for the first time into these Accounts of a sum of £1,357 11*s.* 8*d.* in respect of teachers' salaries that has hitherto appeared only in the University Accounts.

Expenditure.—The ordinary expenditure amounted to £176,994 11*s.* 3*d.* as compared with £167,415 4*s.* 1*d.* in 1922–23, an increase of £6,579 7*s.* 2*d.*

The excess of ordinary expenditure over ordinary income for 1923–24 was, therefore, £8,051 3*s.* 7*d.* This increased expenditure was the sequel to the occupation of the new buildings for Anatomy and Physiology and to the extension of the Engineering Buildings. The income from the Rockefeller Fund, as stated in the paragraph above, provided £1,994 towards that portion of the new expenditure concerned with academic salaries, but the overhead expenses of rates, heating, lighting, water, and the departmental wages, which involved an increased expenditure of £4,121, fell upon general College funds. When a fall in fee revenue occurs, it is not possible to make a corresponding reduction in expenditure. The deficit of £8,051 3*s.* 7*d.* is therefore accounted for, on the one hand, by increased expenditure due to the new buildings, and, on the other hand, to the decline of fee revenue.

To this deficit must be added the sum of £534 15*s.* 5*d.* in respect of the reconstruction of the Departments of Applied Mathematics, Botany, Physics, etc., making a total excess of expenditure over income for the year of £8,585 19*s.* 0*d.*

This excess has been met, as to £5,558 0*s.* 9*d.* from the balance of 1922–23 (£1,558 0*s.* 9*d.*) and from the Reserve Fund (£4,000), leaving a debit balance of £3,027 18*s.* 3*d.* to be carried forward to the Session 1924–25.

The Balance Sheets.

(i.) *Trust Funds Balance Sheet* :—

The more important additions to the Capital Account during the year are: the Sir William Meyer Bequest of £3,000 to provide Studentships for the encouragement of proficiency in European History and the History and Geography of India, and the Ker Publication Fund of £214 17*s.* 11*d.* There was also received during the year the sum of £105 to form the Mary Brodrick Prize Fund, which has, since the date of the Balance Sheet, been invested and added to Capital.

(ii.) *General Balance Sheet* :—

The New Anatomy Building, the gift of the Rockefeller Foundation, has been occupied from the beginning of the Session 1923–24. The cost of the land, buildings, and equipment to 31st July, 1924, amounting to £179,053 19*s.* 10*d.*, therefore appears in the Balance Sheet for the first time. This amount will be added to when the further sums that are available for equipment have been expended.

There has also been added to Capital the sum of £52,584 5*s.* 10*d.*, being the cost of the Engineering Building Extension and Equipment, in so far as it has been met out of funds already raised. There remained a debt at 31st July, 1924, of £2,991 2*s.* 3*d.*, which will be added to Capital as soon as there are funds available for the purpose.

The other sum added to Capital is the cost of the Sculpture Studios, amounting to £5,532 5*s.* 5*d.*

During the year the sum of £170 was also received for the Madeleine Cole Loan Fund Account, which has been used to supplement the existing Loan Fund for Students.

The Current Financial Year.

Estimates 1924–25.

The estimates for the current year (1924–25) show an excess of ordinary expenditure over ordinary income of £6,575. To this must be added a sum of about £2,061 towards extraordinary expenditure, which includes the reconstruction and adaptation for the purposes of the Departments of Applied Mathematics and Physics of the rooms set free by the removal of the Department of Anatomy, and also one-fifth of the essential expenditure of £5,000 involved in the re-heating of the South-Wing, the boilers for which broke down at the end of last session. Adding to these the debit balance from 1923–24 (£1,934 7*s.* 8*d.*), the total debit balance at the end of the current session, unless otherwise provided, is likely to be £10,570 15*s.* 4*d.* There is also a debt of over £2,000 on the reconstruction of the Science Library which has not yet been provided by special subscriptions.

Urgent Needs.

Members and friends of the College are therefore invited to assist the College by giving special subscriptions towards the extraordinary expenditure referred to in the previous paragraph, more particularly that involved in the reconstruction for other departments of the old Anatomy Department and towards wiping off the debt on the Science Library. They will remember that, in assessing the claims to Government Grants, the University Grants Committee takes into consideration the amount of local effort.

Additional funds are required for the following capital purposes:—

A sum of about £15,000 is still needed for the equipment of the Physical and Electrical Chemistry Laboratory and for the general electric installation throughout that building. Without this equipment and electric installation, the full use of these splendid laboratories is seriously hindered.

Towards the sum of £100,000 required for the completion of the South-West Wing for the Faculty of Engineering, the London County Council have made a special grant of £5,000 for the equipment of the new Laboratories. A sum of £52,584 has therefore now been raised in promises and gifts, with a further contingent gift of £10,000 from Lord Cowdray as soon as £70,000 has been raised. It is of very great importance that this work should be completed with as little delay as possible, as the demands upon the Faculty of Engineering, especially for postgraduate work, are still increasing.

The purchase of Nos. 114 and 116 Gower Street, the sites of which are to be used to provide for new buildings for the Department of Zoology and Comparative Anatomy, has involved an expenditure of £6,419, which has been met for the time being by a loan.

There are two departments for which additional revenue, either in the form of permanent endowment or of annual donations, is urgently required. They are Applied Statistics and Scandinavian Studies.

The Department of Applied Statistics has, by the generosity of the late Sir Herbert Bartlett, Bt., been provided with a beautiful building, and has been partially equipped. For its full development, as contemplated by its founder, Sir Francis Galton, an additional income of about £5,000 a year is required. A sum of £1,000 is needed immediately for additional Museum Cases and for the improvement of the Animal Houses.

The experimental period for which the Department of Scandinavian Studies was set up has come to an end, and the funds specially raised have been exhausted. The College Committee desire to support the Scandinavian Studies Committee in their endeavour to raise a permanent fund for this work. The department requires an income of £1,500 a year (see p. 54).

THE COLLEGE COMMITTEE.

Mr. E. de Quincey Quincey has intimated that, owing to his election as Chairman of the Council of East London College, he finds it necessary to resign his seat on the College Committee, which he has occupied since 1919. In 1922 he succeeded the late Mr. Keene as one of the Joint Treasurers of the College. The Committee desire to place on record their regret that circumstances make it necessary for Mr. Quincey to sever, for a time at least, his connection with them, and their appreciation of the great services that he has rendered to the College, particularly in financial matters.

Professor J. Arthur Platt and Professor D. M. S. Watson were appointed two of the representatives of the Professorial Board *vice* Mr. Norman Baynes and Professor Starling retired.

THE PROFESSORIAL BOARD.

The following have been appointed members of the Professorial Board under Statute 24, Sub-section (4):—Dr. Pieter Harting and Mr. W. E. Garner, University Readers in Dutch Language and Literature and Physical Chemistry respectively.

Miss Lilias Armstrong and Dr. Elizabeth Fraser have been elected members of the Board for the current session *vice* Dr. F. W. Goodbody and Miss M. A. Murray as two of the six members of the Academic Staff selected by ballot under Statute 24 (5) and Regulation 29.

REPRESENTATIVES.

The following have been appointed or re-appointed representatives of the College on the various bodies, or at the Congresses or celebrations, named:—

By the Senate:—

The Provost (Sir Gregory Foster).	Journalism Committee.
The Provost (Sir Gregory Foster) and Mr. Andrew Taylor.	Architectural Education Committee.
Senator Professor Cippico.	Celebration of Fiftieth Anniversary of the Foundation of the *Società Adriatica di Scienze Naturali* at Trieste, December 1924.
Professor E. G. Coker.	Celebration of Fiftieth Anniversary of the Foundation of the Ecole Polytechnique, Brussels, 1924.
Professor E. G. Coker and Professor A. O. Rankine.	International Mathematical Congress, Toronto, August 1924.
Professor Edmund Gardner and Dr. Walter Seton.	Celebration of Seventh Centenary of the Foundation of the University of Naples, May 1924.

Professor H. R. Kenwood.	(i.) Tenth Annual Conference of the National Association for the Prevention of Tuberculosis. (ii.) Congress of Royal Sanitary Institute, Edinburgh, July 1925.
Mr. J. T. Macgregor-Morris.	Governing Body of King Edward VIth School, Chelmsford.
Dr. Walter Seton.	(i.) Governing Body of Central Foundation Schools. (ii.) Central Council of Federated Superannuation System.
Dr. Charles J. Sisson.	Governing Body of United Westminster Schools and Emmanuel Hospital Foundation (*vice* Mr. Solomon resigned).
Mr. L. Solomon.	Governing Body of United Westminster Schools. [Since resigned—see above.]
By the College Committee:—	
Sir Gregory Foster.	Council of College Hall, London.
The Provost (Sir Gregory Foster), Dr. F. W. Goodbody, and Dr. Walter Seton.	Committee of Management of University College Hall.
The Provost (Sir Gregory Foster), Mr. L. Solomon, and Professor A. J. Clark (in respect of the Faculty of Medical Sciences).	London Intercollegiate Scholarships Board.
Professor Daniel Jones.	Congress of German *Neuphilologentag*, Berlin, July 1924.

DEATHS.

The Committee record with regret the death of the following persons connected with the College:—

Professor Sir William Bayliss (Professor of General Physiology since 1912; Fellow. [27th August, 1924.]

Among those who represented the College at the Funeral Service were:—The Provost (Sir Gregory Foster); the Dean of the Faculty of Medical Sciences (Professor Clark); the Jodrell Professor of Physiology (Dr. A. V. Hill); Professor Starling; the Dean of the Faculty of Engineering (Professor Coker); Professor M. J. M. Hill; the Sub-Dean of the Faculty of Medical Sciences (Dr. Woollard); and the Accountant.

The Vice-Chancellor (Professor Ernest Gardner) represented the University and the College.

At a General Meeting of the Academic Staff held at the opening of the Session the following Resolution was adopted:—

"That the Members of the Academic Staff desire to place on record their high appreciation of the services of Professor Sir William Bayliss to scientific teaching and research and of his loyalty and devotion to the College, of which he was a distinguished Fellow.

They desire to record their deep regret at his death, involving loss to the World of Science in general and to the College in particular, and to convey to Lady Bayliss and the members of her family, and to his co-worker, Professor Ernest Starling, their deep sympathy in the sorrow that has come to them."

[See also p. 55.]

Miss K. A. Burke (Assistant Lecturer in the Department of Chemistry). [6th July, 1924.]

At the General Meeting of the Academic Staff held at the opening of the Session it was resolved:—

"That this meeting of the Academic Staff desire to record their sense of the loss that has come to the College through the death of Miss Katherine A. Burke, who by her devoted work for the welfare of the students had won the esteem of the College community."

Professor Marcus Hartog (Former Student).

Mr. Kenneth Hawksley (Former Student; Member of Engineering Building Committee).

The Dean of the Faculty of Engineering (Professor Coker) represented the College at the Funeral.

[See also p. 45.]

Professor John Hunter of the University of Sydney (Special Lecturer in the Department of Anatomy). [10th December, 1924.]

Mr. H. Lupton (Demonstrator in Physiology). [6th September, 1924.]

Dr. Sidney Martin (Professor of Pathlogy 1895–6 to 1906–7, of Clinical Medicine 1902–3 to 1906–7; Fellow). [22nd September, 1924.]

Miss M. E. Meyer (Former Demonstrator in the Department of Mathematics).

Dr. W. Blake Odgers (Former Student; Former Life-Governor; Former Member of College Committee). [16th December, 1924.]

Sir Sydney Russell-Wells (Member for the University; Former Vice-Chancellor and Member of the College Committee). [14th July, 1924.]

The College was represented at the Memorial Service by the Vice-Chairman of the College Committee (Sir John Bradford), the Provost, Professor Coker, Professor Clark, Professor Hicks, Professor Murison, and the Secretary.

Sir John Salmond (Fellow).

Professor S. C. Shattock (Fellow). [May, 1924.]

The College was represented at the Funeral by the Dean of the Faculty of Medical Sciences (Professor Clark).

Mr. John Slater (Former Member of the Architectural Education Committee).

Mr. A. H. Spokes (Fellow). [The death occurred in December 1922; it was reported to the College in May 1924.]

WAR MEMORIAL AND WAR RECORD.

On Tuesday, 11th November, 1924, the customary form of the Armistice Day Celebration was observed jointly with the Hospital and Medical School in the Main Quadrangle. A Wreath of Remembrance was placed around the names, in the South Cloisters, of those members of the College who gave their lives in the Great War; the Commemoration Sentences were read by the Provost, and a period of silence followed.

The Editor of the War Memorial Album (Professor R. W. Chambers) presented a copy of the second volume to the Vice-Chairman of the College Committee, who, after thanking him and his co-workers, handed it to the Librarian for preservation in the College Library. A second copy was handed by one of the Sub-Editors (Miss Batho) to the Dean of the Medical School. The record thus completed will form a valued possession of the College for all time.

The War Memorial Fund is now closed. The original scheme was as follows:—

A. (i.) A War Memorial Album.
(ii.) Memorial Tablets.
(iii.) Scholarships.

B. A Great Hall for the use of the College and Medical School.

C. The Endowment of University College Hall, Ealing.

The first two aims of the scheme have now been completed.

The War Memorial Committee will shortly issue a report on their work as a whole.

GRANTS AND LOANS TO STUDENTS.

Reference is made elsewhere (p. 45) to the institution of the M. J. M. Hill and Madeleine Cole Loan Funds.

Since the institution of the Bursary and Loan Fund in the Session 1921-22, a total amount of £2,510 9*s.* 11*d.* has been available, which has been made up as follows:—Donations, £236 8*s.* 0*d.*; from Fees Suspense Account, interest on deposits, and from College funds, £2,274 9*s.* 11*d.*, of which £927, being in the form of loans, is repayable.

The list of donors to the Fund is given in Appendix III.

Bursaries are gifts towards maintenance; Exhibition Bursaries are gifts towards fees. These awards are generally made to Entrance Scholars, whose circumstances are such as to make supplements to the value of the Scholarships essential.

Loans are made on the following terms:—

(*a*) Loans during a Student's career in the College shall not carry interest.

(*b*) After the end of a Student's career in the College the loans shall carry interest at the rate of 1% above Bank rate, with a maximum of 5%.

(*c*) Loans should be repaid within three years from the completion of a Student's College career, unless, on the special application of the Student concerned, an extension of time is granted.

(*d*) Students to whom loans are granted will sign a document accepting these conditions, and in the cases of Students under age their parents or guardians shall countersign the same undertaking.

The following is a statement of disbursements since the inception of the Fund to the present date:—

	£	*s.*	*d.*
Bursaries	1,029	0	0
Exhibition Bursaries	592	11	0
Loans	927	0	0
	£2,548	11	0

Of the loans, £30 has been repaid.

The fund is administered by a Committee consisting of the Provost, the Deans, the Tutor to Women Students, and the Sub-Deans.

This Committee deals with each case on its merits and after careful investigation.

This fund is of great value, and enables many Students to obtain the training they desire and deserve. At the same time the fund is not at present large enough to enable the Committee to meet the needs of all deserving cases.

Members of the College are specially invited to support it.

THE COLLEGE SITE AND BUILDINGS.

Opening of the Ramsay Memorial Laboratory of Chemical Engineering.

Reference was made in the last Annual Report to the reconstruction and equipment of No. 23 Gordon Street as a temporary home for the Ramsay Memorial Laboratory of Chemical Engineering. The formal opening was performed by H.R.H. Prince Arthur of Connaught, who, with Princess Arthur of Connaught, visited the College for this purpose on Wednesday, 12th November, 1924. Sir Robert Robertson, Chairman of the Chemical Engineering Sub-Committee, presided at the opening ceremony. In his speech he emphasised the want in this country of men with the technical training of chemists who were capable of transferring a laboratory operation to a large scale; he urged chemical manufacturers to consider whether they could not afford facilities for taking students into works, as was done in the United States.

Prince Arthur of Connaught, in declaring the laboratory open, said that the ceremony was the final act in the provision of a worthy memorial to that great man of Science, Sir William Ramsay, who for 26 years, from 1887 to 1913, held the Chair of General and Inorganic Chemistry at the College, and who, by his remarkable series of discoveries during that period, earned for himself a place in the first rank of the world's scientific workers and brought honour and renown to the College with which he was connected. After referring to the first part of the work of the Ramsay Memorial Committee—the establishment of international Ramsay Fellowships, His Royal Highness said that he was gratified to learn that, apart from the support given to the movement by the Ramsay Memorial Fund, which handed over a sum of £26,979, the Laboratory of Chemical Engineering had enlisted the ready and generous support of many of the greatest firms of this country which were connected with the chemical industry. A sum of approximately £1,390 a year for five years had been provided in this way. Even now, further financial support was needed if the department was to be enabled to rise to its full possibilities as the handmaid of the chemical industry of the country.

Mr. W. J. U. Woolcock, President of the Society of Chemical Industry, said the laboratory was the first one in this country for the training of a type of man that must be produced. He believed there were certain difficulties at present in admitting Students to work in factories, but he thought the time would come when that step would not be too big to take.

BENEFACTIONS AND DONATIONS.

The College Committee make grateful acknowledgment of the following gifts:—

The list on p. 87 includes the grants from the Chadwick Trustees and the Drapers' Company, which have been renewed during the year. It also includes the sum of £300, subscribed annually through

His Excellency the Italian Ambassador for the Department of Italian, and the donations to the Fund for the Chair of the History of Art and the Students' Loan Fund.

The Carnegie United Kingdom Trust have made a grant for the School of Librarianship for a further period of five years as follows :— First year, £1,000; second year, £800; third year, £600; fourth year, £400; fifth year, £200.

The London County Council have made a special grant of £500 for the Department of Scandinavian Studies for the Triennium 1923–26.

Through the good offices of Professor Donnan, Messrs. Brunner, Mond & Company have made a special grant of £1,650 to be used for the purpose of Chemical Research under the direction of Professor Donnan.

The late Mr. Kenneth P. Hawksley has made a bequest of £250 for the Engineering Laboratory, with interest at 5 per cent. from the expiration of six months from the testator's death.

Miss Mary Brodrick has given £105 to be invested, the income being used for the institution of a Prize in Geography of an annual value of about £5. The terms of the Trust and the regulations for the award of this Prize have been approved by the donor, the College Committee and the Senate.

The Senate have accepted an invitation to take over the Trust under the Will of the late Miss Laura Soames, and have requested the College Committee to draw up draft regulations for the award of a Laura Soames Prize in Phonetics.

The Trustees of the Madeleine Cole Memorial Loan Fund, instituted by friends and former pupils of the late Mrs. W. R. Cole, have handed over a sum of £170 to form a "Madeleine Cole Memorial Loan Fund" for Women Students, in memory of the work she did for the cause of education as Superintendent of the College for Working Women, Queen Square, Bloomsbury (1864 to 1874), and later as the founder of a School for Girls "on original and ideal lines" at Earl's Court.

The Professor M. J. M. Hill Testimonial Committee are handing over a sum of about £250 to form an "M. J. M. Hill Loan Fund." The Trust requires that, in making grants, preference shall be given to Students who have shown special proficiency in Mathematics.

To commemorate the distinguished services rendered by the late Professor W. P. Ker in connection with the institution of the Department of Scandinavian Studies, of which he was the main promoter and first Director, some of his friends and former Students, under the chairmanship of Sir Edmund Gosse, are endeavouring to raise a Memorial Fund sufficient to endow permanently one of the three Lectureships in that Department, to be named after him.

Reference is made in the section dealing with the Library to the gift of Scandinavian books formerly belonging to the late Professor Ker, from the Warden and Fellows of All Souls College, Oxford, through the good offices of the Misses Ker.

Sir Joseph Duveen has given £200 to make it possible for Professor Tonks to continue the work he has recently begun in enabling selected Students of the Slade School to do practical work in decoration. The Executors of the late Sir Claude Phillips have given a number of casts for use in the Slade School.

The Department of Scientific and Industrial Research has made grants to research workers in the following departments:—Applied Statistics, Chemistry, Bio-Chemistry, Physics, Physiology, and Municipal Engineering.

In the section relating to the Library, reference is made to the gift by Sir Hermann Gollancz of his valuable Library. Through the good offices of Mr. Gustave Tuck, the Jewish Historical Society have deposited on loan in the Mocatta Museum a case containing the Victoria Cross and other medals awarded to Sergeant Issy Smith, the first Jewish Recipient of the V.C.; Mr. Percy L. Marks has, through Miss Constance Marks, given a portrait of the late Mr. F. D. Mocatta, painted by the late Mr. B. S. Marks, for the Mocatta Library.

The Liverpool Nitrate Company, Ltd., have, through the good offices of Professor Donnan, given a complete spectroscopic outfit for the Department of Chemistry.

Lady Bayliss has given the apparatus formerly belonging to the late Professor Sir William Bayliss for the Department of Physiology.

The Admiralty has given four air vessels of German Torpedoes as an addition to the experimental plant of the Department of Engineering.

Mr. Hurst, the Reader in English Law, offered two prizes of £2 2*s*. each for the best essay from the Equity Classes of 1922–23 and 1923–24 respectively, which were duly awarded.

The following gifts of portraits and photographs have been received:—From Professor M. J. M. Hill, the portrait of himself painted by Mr. John Wheatley that was presented to him by the Professor M. J. M. Hill Testimonial Committee; from Professor Frederick Brown, the self-portrait (painted in or about 1911) that has been in the Slade School for some years; from the executors of the late Sir William Meyer and the late Miss M. E. Meyer, a portrait of Sir William Meyer; from Mrs. Sutherland, a portrait of the late Professor W. A. Hunter, who held the Chair of Roman Law from 1869 to 1878 and the Chair of Jurisprudence from 1878 to 1882; from Sir Alexander Kennedy, a portrait sketch of himself by the late Professor A. Legros; and from Lady Tweedy, a photograph of the late Emeritus Professor Sir John Tweedy.

Mr. W. W. Rouse Ball, one of the Senior Fellows of the College, has presented a Silver Gilt Cup to the body of Fellows.

Other gifts include:—From Miss Ward, for the Barlett School of Architecture, a collection of Lantern Slides formerly belonging to her brother, the late Mr. W. H. Ward, a member of the Architectural Education Committee; from Miss A. A. Heine and from the Sedgwick Museum, Cambridge, gifts to the Geological Museum; from Professor Wolf, a coloured engraving of the College Buildings; and from Mr. Claude Chidell, an engraving, "Men of Science, 1807–08."

Donations to the Library are recorded on pp. 97–101.

THE ACADEMIC STAFF.

Appointments and Changes.

During the current year, the following changes of title have been adopted: —

Faculty of Arts:

Miss Edith C. Batho	Senior Assistant in English (*vice* Assistant).
Miss Hélène Coustenoble .	Senior Assistant in Phonetics (*vice* Assistant).
Mr. O. Doughty	Senior Lecturer in English (*vice* Assistant Lecturer).
Mr. C. D. Forde	Assistant Lecturer in Geography (*vice* Assistant).
Mr. F. C. Harris	Research Assistant in Applied Mathematics (*vice* Demonstrator).
Mr. H. J. Harris.....	Senior Lecturer in Mathematics (*vice* Senior Assistant).
Dr. Elsie Hitchcock	Senior Assistant in English (*vice* Assistant).
Mr. H. T. Jessop.....	Senior Lecturer in Applied Mathematics (*vice* Senior Assistant).
Miss Elizabeth Joels ..	Assistant in Latin (*vice* Demonstrator).
Mr. H. A. Matthews	Assistant Lecturer in Geography (*vice* Assistant).
Mr. J. E. Neale	Assistant Lecturer in History (*vice* Assistant).
Mr. F. Norman	Assistant in German (*vice* Demonstrator).
Miss Eunice Quarmby ..	Demonstrator in French (*vice* Student Demonstrator).
Miss Edith Quick	Senior Assistant in Phonetics (*vice* Assistant).
Miss Margaret Shackleton	Senior Assistant in Geography (*vice* Assistant).
Mr. E. M. Stéphan.....	Assistant Lecturer in French (*vice* Assistant).
Miss Isobel Thornley	Assistant Lecturer in History (*vice* Assistant).
Miss Ida C. Ward	Senior Assistant in Phonetics (*vice* Assistant Lecturer).

Faculty of Science:

Mr. E. C. Richardson ..	Assistant in Physics (*vice* Demonstrator).
Mr. J. H. Smith	Assistant Lecturer in Physics (*vice* Assistant).
Mr. A. L. M. Sowerby ..	Assistant Lecturer in Chemistry (*vice* Assistant),

Mr. E. H. Thierry .. ... Assistant Lecturer in Chemistry (*vice* Assistant).

Faculty of Engineering:

Mr. B. H. Knight ..... Assistant Lecturer in Municipal Engineering (*vice* Assistant).

Faculty of Medical Sciences:

Mr. W. E. L. Brown .... Honorary Assistant in Physiology (*vice* Demonstrator).

Mrs. Conway Verney .... Demonstrator in Physiology (*vice* Assistant Demonstrator).

Dr. Elizabeth Fraser .... Senior Lecturer in Zoology (*vice* Senior Assistant).

Miss Catherine Hill .... Assistant in Histology (*vice* Assistant Demonstrator).

Mrs. Kerridge ..... Demonstrator in Physiology (*vice* Assistant Demonstrator).

Faculty of Arts.

The following new appointments have been made:—

Egyptology	Dr. Edith Mary Guest	Honorary Assistant.
English	Mr. F. J. Fisher.....	Assistant.
Philosophy and Psychology.	Mr. Prince Hopkins	Honorary Assistant.
	Miss Eva C. Reckitt	Assistant.

Mr. Arthur Stratton has been re-appointed Reader in Architecture from 1st August, 1925, until the end of Session 1932-33.

Dr. Pieter Harting has tendered his resignation of the Readership in Dutch Language and Literature, to take effect at the end of the Second Term, on account of his appointment as Professor of English in the University of Gröningen.

Dr. Pieter Harting (Reader in Dutch Language and Literature), Miss Beatrice Schlumberger (Assistant in French), Miss Margaret Shackleton (Senior Assistant in Geography), and Mr. E. C. Titchmarsh, Senior Lecturer in Mathematics) have been appointed members of the Faculty of Arts.

Faculty of Laws.

Professor J. H. Morgan has been re-appointed to the Chair of Constitutional Law at University College, as from 1st August, 1925.

Mr. H. F. Jolowicz has been appointed Lecturer in Jurisprudence and Roman Law for the Session 1924–25, and is acting during the Session as deputy to Professor Murison in respect of the evening classes in Roman Law. Mr. Jolowicz has also been appointed Sub-Dean of the Faculty of Laws.

Count Léon Ostrorog has been appointed to undertake the teaching

in Ottoman Law, Mr. Gilbert Dold the teaching in Roman-Dutch Law, and Mr. Frank Gahan the Senior Roman Law Seminar Classes, for the present Session.

Mr. J. B. Richardson has been appointed Temporary Assistant to the Reader in English Law, to undertake the day courses in Equity.

Faculty of Science.

The following new appointments have been made :—

Chemistry	Mr. S. Barratt	Assistant Lecturer.
	Mr. C. W. Bonniksen ..	Assistant.
	Mr. I. R. McHaffie	Demonstrator.
Botany.....	Mr. E. H. Chater.....	Demonstrator.
Physics	Dr. L. F. Bates.....	Assistant Lecturer.
Philosophy and Psychology.	Dr. E. Pasmore	Hon. Senior Demonstrator.
History and Method of Science	Dr. Ivor B. Hart ... .. / Miss Dorothy M. Turner	Hon. Research Assistants.
Applied Statistics and Eugenics.	Mr. J. Wishart	Hon. Research Assistant.

The title of Reader in Physical Chemistry has been conferred upon Mr. W. E. Garner, hitherto Senior Lecturer in the Department of Chemistry.

Dr. Irvine Masson resigned the Readership in Inorganic Chemistry on being appointed Professor of Chemistry and Head of the Department of Pure Science in the Durham Division of the University of Durham.

The post of Quain Lecturer in Physics for the Sessions 1924–25 and 1925–26 has been created, and Mr. R. C. Richards, formerly Assistant in the Department of Physics, has been appointed thereto.

The title of Director of the Observatory has been conferred upon Professor L. N. G. Filon.

Mr. V. S. Summerhayes has resigned the Quain Studentship in Biology, on being appointed to a post in the Herbarium at Kew Gardens, and has been succeeded by Miss Violet Anderson.

Dr. Burrows Moore (Assistant Lecturer in Chemical Engineering), Mr. J. H. Smith (Assistant Lecturer in Physics), Mr. S. Barratt (Assistant Lecturer in Chemistry), Mr. C. R. Bailey (Assistant Lecturer in Chemistry), Mr. C. N. E. Day (Assistant Lecturer in Chemistry) have been appointed members of the Faculty of Science.

Faculty of Medical Sciences.

The following new appointments have been made :—

Bio-chemistry	Mr. H. J. Channon	Assistant.
	Mr. W. K. Slater	Assistant.
	Mr. H. J. G. Hines	Demonstrator.
Physiology	Mr. D. R. Hilton	Hon. Assistant.
	Mr. G. P. Crowden	Assistant.
	Dr. A. S. Parkes	Hon. Assistant.
	Mr. R. J. Lythgoe	Sharpey Scholar.

Professor H. R. Kenwood resigned the Edwin Chadwick Professorship of Hygiene and Public Health at Christmas. The Senate, on the recommendation of the College Committee, decided to leave the Chair at present unfilled. Mr. M. E. Delafield, hitherto Assistant and Lecturer in the Department, has been appointed Acting-Head of the Department. (See also p. 56.)

Dr. N. B. Drever resigned at Christmas his appointment as Assistant in the Department of Pharmacology on his appointment to a post in Dalhousie University, Halifax, Nova Scotia. Mr. F. R. Winton has been appointed Assistant in his place.

Mr. J. H. Smith (Assistant Lecturer in Physics) has been appointed a member of the Faculty.

FACULTY OF ENGINEERING.

The following new appointment has been made :—

Electrical Engineering.	Dr. H. E. Monteagle Barlow.	Assistant and Lecturer.

The title of Director of the Engineering Laboratories has been conferred upon Professor E. G. Coker, Dean of the Faculty.

Dr. L. F. Bates (Assistant Lecturer in Physics) and Mr. R. C. J. Howland (Senior Lecturer in Mathematics) have been appointed members of the Faculty of Engineering.

THE WORK OF THE FACULTIES.

The Report presented by the Provost at the Assembly of Faculties last July deals with the chief events of the Session 1923–24. This report, together with the address delivered on that occasion by the Rt. Hon. Edward Wood, M.P. (sometime President of the Board of Education), who received the new Fellows, the Scholars, Medallists, and Prizemen, is printed in the Calendar for the current Session.

A list of the Original Publications by members of the Staff and Research Students for the year 1923–24 will be found on pp. 305–328 of the current Calendar. In the interests of economy, it is not reproduced here.

In the course of the Session 1923–24, over 7,000 persons attended Public Lectures, the approximate aggregate number of attendances being 12,180. The College Committee desire to express their appreciation of the services of the several Lecturers who have assisted in this important public work. The following is a list of those arranged since the issue of the last Report* :—

By members of the College Staff :

Professor L. M. Brandin.	"Berthe au grand pied." (In French.)
Professor R. W. Chambers.	"Ruskin and Byron."
Senator Professor A. Cippico.	"Lirici italiani contemporanei," ; "Il mistero nella poesia di Pascoli" ; "Il senso panico nella poesia di Gabriele d'Annunzio."

* For the Public Lectures arranged in connection with the School of Librarianship, see p. 90.

Professor J. E. G. de Montmorency.	"History of Leagues of Nations" (Two lectures). "The History of Diplomacy" (Two lectures); "Four English Jurists" (Two lectures); "African Customary Law" (Twelve lectures); "The contribution of Jeremy Bentham to the Study of Law."
Professor E. A. Gardner.	"Greek Literature and Art."
Professor Edmund G. Gardner.	"Antonio Fogazzaro"; "The Personality of Mazzini"; "Mazzini as Literary Critic"; "Problems of the *Inferno*" (Twelve Barlow Lectures on Dante).
Professor P. Geyl.	"William III. as Stadtholder" (Two lectures).
Professor G. Dawes Hicks.	"Kant's Theory of Beauty and Sublimity" (Three lectures); "Philosophy and Psychology"; "German Philosophy in the XIXth Century" (Six lectures).
Professor Sir Flinders Petrie.	"The Official Classes of Egypt," "Recent Discoveries in Egypt" (Repeated twice).
Professor A. F. Pollard.	The Watson Chair Foundation Lecture: "Re-conciliation in Anglo-American History."
Professor A. E. Richardson.	"Some Famous London Bridges" (Three lectures in conjunction with Miss E. Jeffries Davis).
Professor J. G. Robertson	"Byron and Goethe."
Professor C. Spearman.	"Current Views of Individual differences."
Dr. E. A. Baker.	"Byron—A Centenary Estimate."
Mr. A. H. Barker.	"The Heating Equipment of a large Country House."
Mr. Norman H. Baynes.	"Some Aspects of Byzantine Civilisation" (Four lectures).
Mr. I. Björkhagen.	"Sweden: its Land and People," "Fredrika Bremer and England" (Two lectures); "The Swedish Novel from Almquist to Strindberg" (Three lectures).
Miss E. Jeffries Davis.	"Some Famous London Bridges" (Three lectures in conjunction with Professor A. E. Richardson).

Mr. I. C. Gröndahl.	"The development of Nature feeling in Norwegian Literature" (Six lectures).
Mr. J. H. Helweg.	"English Influence on Danish Literature in the XVIIIth and XIXth Centuries" (Six lectures).

Professor A. N. Whitehead.	"The Nature of Science" (In conjunction with Professor Nunn).

The following brief summary of matters supplementary to the statement contained in the Report presented at the Assembly of Faculties is given here to make the record of the year as complete as possible:—

FACULTY OF ARTS.

The Bartlett School of Architecture.

The Report of the Professor on the Bartlett School of Architecture for the Session 1923–24 is appended hereto (p. 94), from which it will be seen that Students of the School have, in competition with Students of other Schools, been successful in obtaining some high awards. It is also gratifying to note that the good training given in the School is being recognised more and more by members of the architectural profession.

In connection with the Department of Town Planning, a Conference and Exhibition were organised by Professor Adshead and held in the School during the week 31st March to 5th April. H.R.H. Prince Arthur of Connaught visited the College on 31st March for the purpose of opening the Conference and inspecting the Exhibition. The object of the Conference was to provide an opportunity for past and present Students and others interested in Town Planning to discuss questions relating to Town Planning, especially those concerning the preparation of schemes under the Town Planning Act. Many well-known architects and Town Planning and Housing experts took part in the discussions.

The Slade School.

The Slade School has been quite full; there is a waiting list of Students applying for admission. In the Final Competition for the British School at Rome Scholarships in 1924, Students of the Slade School were again among the selected candidates, Mr. Emile Jacot in Sculpture and Messrs. W. E. C. Morgan and E. C. Prust in Engraving. Members of the School have been well represented in the contemporary art exhibitions, including that of the New English Art Club which has created so much interest.

School of Librarianship.

The Director's Report on the School of Librarianship for the Session 1923–24 is appended (p. 89). It shows that Students of the School have been successful in obtaining some good appointments. The initial period of five years was completed last Session, and, with the aid of the Carnegie Trustees and grants from central University Funds, arrangements have been made for a further quinquennium. The permanent establishment of the School on a sound financial basis is one of the needs that have still to be met, and the Committee are at present considering the best means of proceeding in the matter. The work of the first five years has proved that a University School of Librarianship fills a need that cannot be otherwise met. The generosity of the Carnegie Trustees, without whose aid the work could not have been begun, must not be allowed to fail of its ultimate object, the establishment of a sufficiently endowed University School of Librarianship. The number of Students enrolled for the current Session is 102, of whom 67 are working for the Diploma.

Scandinavian Studies.

Another department for which a permanent establishment has yet to be found is that of Scandinavian Studies, of which Professor J. G. Robertson is now the Director. Each of the three lecturers is doing his utmost to promote the work in his own particular branch by the

delivery of public lectures as well as classes, and the College is co-operating with the University of Cambridge in the delivery of courses by the same lecturers at that University. The Scandinavian Section of the Library now consists of over 2,000 volumes, which have been housed in a special room. Reference is made elsewhere (p. 45) to the effort that is being made by friends and former Students of the late Professor William Paton Ker, who did so much for Scandinavian Studies in this country, to endow one of the three lectureships in his memory.

Greek.

It is a matter of great regret to Professor Platt's many friends in the College that illness has prevented him from taking any part in College life during the First Term of the current Session, and leave-of-absence has now been extended to him for the Second Term. The work in Greek is being carried on in his absence by Mr. L. Solomon assisted by Miss Joels and temporary help; Mr. S. G. Gates, of New College, Oxford, took some of the Classes in the First Term.

Egyptology.

The work of the British School of Archæology in Egypt has continued its operations with great activity under the direction of Professor Sir Flinders Petrie. The Annual Exhibition, showing the results of recent excavations at and near Qau and Hamamieh, included objects of great historic importance, from which it was possible to fix a civilisation older than any yet known in Egypt, differing in every detail from known prehistoric work and almost certainly preceding it. The flint work discovered distinctly indicates that it is a branch of the Solutrean style, which is believed to have come to Europe westward from Central Asia. The pottery found was also distinctive in character. A further discovery of the year is that the princes of Qau were of Galla origin, and were ancestors of the XIIth Dynasty.

FACULTY OF LAWS.

Reference was made in the last report to the growing work of the Faculty of Laws and the changes in the curriculum. As a sequel to the deliberations on the Tri-partite Scheme, under which University and King's Colleges and the London School of Economics co-operate for the promotion of Law Studies within the University, some redistribution of work has taken place, and Day Classes for first and second year undergraduate work have been established. The number of Day Students in the Faculty is 31. Reference is made elsewhere (p. 48) to the new teaching appointments that have been made to meet these developments.

Professor A. F. Murison, who has acted as Dean of the Faculty since 1912, was obliged to seek leave-of-absence for the current Session on account of ill-health. Mr. Gilbert Hurst has succeeded him as Dean, and arrangements have been made for carrying on his work.

FACULTY OF SCIENCE.

Reference is made elsewhere (p. 21) to the heavy loss sustained by the whole Faculty, and by the Department of Physiology in particular, by the death of Professor Sir William Bayliss. The College Committee have decided that the room in the Department previously used by him shall in future be known as the Bayliss Research Room, and that a portrait of him shall be placed in that room.

One of the chief developments within the Faculty has been the inauguration of a Special Course for the new degree of M.Sc. in the Principles, History and Method of Science. By an inter-collegiate arrangement, the lectures are being held at University and King's Colleges. Thirty-nine Students have registered at the College. The programme includes lectures by eminent authorities on the various branches of Science covered by the Course, including members of many departments of the College who are co-operating in the scheme. Dr. Charles Singer has devoted much time and energy to making the initial arrangements.

The College Committee have approved the institution of a Certificate Course in Anthropology. A Course of Public Lectures on "The Method and Aims of Anthropology," in which the subject will be viewed from many aspects by various specialists, has been arranged for the current term.

FACULTY OF ENGINEERING.

A visitation on behalf of the University was made last February by Sir Alfred Ewing and Professor W. E. Dalby. Later, a report was issued by Sir Alfred Ewing on the whole question of Engineering work in the University, which was considered by the College Faculty. The Faculty has expressed its views in a report that has now been forwarded to the Senate.

The work of the Faculty has been greatly facilitated by the improved equipment and accommodation, consequent on the reconstruction of that part of the College Buildings.

FACULTY OF MEDICAL SCIENCES.

The Department of Hygiene and Public Health has unfortunately lost the services of Professor Kenwood, who resigned the Chair, which he had held since 1904, last Christmas. His connection with the College goes back to 1890, when he was a Demonstrator under the late Professor Corfield. The long list of Public Health appointments obtained by his Students during thirty-five years is a testimony to the valuable work he has done. No steps are being taken at present to fill the vacancy thus created, in view of the negotiations that are still pending with the new School of Hygiene and Tropical Medicine that has been instituted in London with the assistance of the Rockefeller Foundation. Mr. M. E. Delafield has been appointed Acting-Head of the Department. A Special Course of Lectures on "Factory Hygiene" is being delivered by Sir Thomas Morison Legge during the current Term.

THE LIBRARY.

The accessions to the Library during the Session 1923-24 amounted to 6241 volumes and 2231 pamphlets, of which 2926 volumes and 1344 pamphlets have been presented.

The Donations include the following items of special interest:—

(*a*) A collection of 1201 volumes and 424 pamphlets from the library of the late Professor W. P. Ker, presented by the

Misses Ker, who have also presented a large oak book-case from Professor Ker's library. This donation is one of considerable value to the English and the Scandinavian sections of the Library. It includes 670 items transferred to the College by the Warden and Fellows of All Souls College, Oxford.

(*b*) A collection of 66 Scandinavian books, presented by Mr. J. H. Helweg.

(*c*) 51 volumes of the Malone Society's Reprints, presented by Sir Gregory Foster.

(*d*) MS. notes of Augustus de Morgan's introductory lecture delivered on November 5th, 1828, presented by Dr. W. W. Greg.

(*e*) A copy of Selden's 'Titles of Honor,' 1672, and 27 other volumes, presented by Mr. F. O. Mann.

(*f*) A copy of Speed's 'History of Great Britaine,' 1611, presented by Dr. F. J. Poynton.

(*g*) A set of the publications of the Vasari Society, and several other volumes, presented by Sir John F. Rotton.

(*h*) 264 volumes and 374 pamphlets, being the Laws and Ordinances of the British Colonies, Protectorates, and Mandated Territories, presented by the respective Governments, at the request of the Secretary of State for the Colonies.

A valuable addition has been made to the College collection of *Anglo-Judaica* by the gift from the Rev. Sir Hermann Gollancz of his library, which has been given to "mark his twenty-one years tenure of the Goldsmid Professorship of Hebrew." In addition to many rare items of *Anglo-Judaica* the Hermann Gollancz Library contains a collection of Hebrew and Syriac books of considerable value to students in those subjects. The library contains many early books and pamphlets throwing light on an important period of the history of the Jews in England.

Additional rooms have been allotted for sectional libraries for Classics and Ancient History, and for Scandinavian Languages, and an additional room has been allotted to the English Library. These extensions have been made possible by the removal of the Library Staff to the new Staff rooms at the south end of the Science Library. The English, Yates, and Librarianship Libraries, and the Law and Carnegie Bays in the General Library have been re-organised and re-classified. The books from the Engineering Bay in the General Library have been transferred to the Science Library, where they have been placed with the Chemical Engineering books.

A room which was used as a bookstore in the Department of Mathematics has been vacated, the books being removed to the gallery over the Science Library. The Strong Library has been re-housed in a bay in the General Library, and the Mocatta Library, which has been re-decorated, has been re-arranged to make room for the Sir Herman Gollancz Library.

Mr. A. L. Edwards, the Senior Library Assistant, died on December 10th, 1923, after fifteen years' service in the Library. He had recently been in charge of the Science Library. Having been rejected from the Army on account of ill-health, he rendered valuable service to the Library during the war period, when the Staff was much reduced. Mr. F. M. C. Johnson has been promoted to the rank of Assistant Librarian, Mr. R. Blackall has been promoted Senior Library Assistant, and Mr. J. H. P. Pafford has been appointed a Library Assistant. Mrs. A. F. Pollard has again given valuable voluntary assistance during the Session.

During the Session 1923–24, 288 tudents held keys of the Science Library, and 676 of the different Arts Libraries. The number of books issued for home reading was 10,788.

Donations to the Library are recorded on pp. 97–101.

EVENING AND VACATION LECTURES AND MEETINGS.

The evening activities of the College are steadily increasing, so that the buildings are now open on five evenings of the week for the purpose of special work, mainly of a post-graduate character.

In the *Evening and Post-graduate School of History*, the number of students during the current Session is 166. The work of the School is highly appreciated by school teachers and specialists in History.

It has been possible to develop the *Evening School of Geography* in view of the increased grant from the London County Council. The number of students in the School this Session is 69.

The *Evening School of Phonetics and of Spoken Language* attracts large numbers of teachers of Modern Languages, and its influence on methods of language teaching is rapidly spreading.

Vacation Courses in Spoken English for Foreign Students, in English for Teachers of English, and in French Phonetics for Teachers of French were organised in the summer, and were attended by 192 persons.

The meetings of the Philological Society, the Geologists' Association, the Jewish Historical Society, the Folk Lore Society, the London Section of the Incorporated Society of Musicians, and the University Faculty of Laws Society are held regularly in the College.

In addition to these, learned Societies, including the Classical Association, the British Psychological Society, the British Mycological Society, the Anglo-Hellenic Society, and the Society of Glass Technology have met from time to time.

The League of the Empire Triennial Conference on Education was held at the College from 14th to 19th July, 1924, His Royal Highness The Duke of York attending to perform the opening ceremony. The Thirteenth Annual Conference of Educational Associations was held in January 1925. The London Shakespeare League, the National Society of Art Masters, the Institution of Chemical Engineers, the London Branch of the Modern Language Association, the County of Middlesex Education Society, and the School Nature Study Union have also held meetings. Accommodation is provided for University Tutorial Classes.

SPECIAL EVENTS.

On Thursday, 21st February, 1924, Her Majesty the Queen visited the College on the occasion of the Inaugural Lecture by Dr. Walter Seton, Lecturer in the History of Scotland, on "Some Historians of Scotland." His Grace the Duke of Atholl presided, and among the many distinguished guests were the Archbishop of Canterbury and the Lord Advocate for Scotland.

On Wednesday, 12th November, H.R.H. Prince Arthur of Connaught, accompanied by Princess Arthur, opened the Ramsay Memorial Laboratory of Chemical Engineering. A fuller description of the ceremony is given on p. 44.

During the week 31st March to 5th April, a Town Planning Conference was held in the Bartlett School of Architecture. H.R.H. Prince Arthur of Connaught performed the opening ceremony (p. 54).

On 14th February, 1924, Professor J. W. Mackail, acting on behalf of the subscribers, presented to the College a bust of the late Professor W. P. Ker, executed in bronze by Mr. John Tweed. It was accepted by Sir John Bradford, Vice-Chairman of the College Committee. The Provost and the Quain Professor of English (Dr. R. W. Chambers) proposed and seconded the Vote of Thanks to the sculptor and the subscribers. The bust has been placed in the English Library.

On 30th April, the annual Fellows' Dinner was held. Mr. W. W. Rouse Ball presided, and the new Fellows were the Special Guests.

On 20th May, the British Division of the American University Union held their Seventh Annual Dinner at the College.

On 22nd May, a Pianoforte Recital of Norwegian Music was given by Mr. Fridtjof Backer-Gröndahl in aid of the Fund for the Promotion of Scandinavian Studies.

On the afternoon of 4th June, the Vice-Chairman of the College Committee, the Provost, and the Dean of the Faculty of Engineering held an At Home. Experiments and an exhibition of apparatus and machinery were arranged in the new Engineering Laboratory.

On the conclusion of the Assembly of Faculties on 3rd July, at a meeting in the Mathematics Theatre, Professor L. N. G. Filon, Chairman of the Professor M. J. M. Hill Testimonial Fund Executive Committee, presented Professor Hill with his own portrait painted by Mr. John Wheatley and with a bound volume of the signatures of subscribers. Professor Hill then presented the portrait to the College and Sir John Bradford, Vice-Chairman of the College Committee, accepted it.

On 4th July, the Second Dinner of the Ramsay Memorial Fellowship Trustees and the Ramsay Memorial Fellows was held.

On 9th July, twelve letters and documents relating to Mary Queen of Scots, which were bought by private subscription for the Nation, to be ultimately deposited in the National Library of Scotland, were exhibited at the College, Dr. Walter Seton giving a brief descriptive talk.

On 20th November, the friends of Dr. D. S. MacColl, Fellow of the College, gave him a Complimentary Dinner in the College Refectory on the occasion of his retirement from the office of Keeper of the Wallace Collection. Sir John Stirling Maxwell presided, and among

the many distinguished guests present were the Marquess Curzon of Kedleston, Lord D'Abernon, Lord Lee of Fareham, Mr. John S. Sargent, Mr. Augustus John, Mr. George Moore, and Mr. Ramsay MacDonald.

The anniversary of the day on which the first Charter was granted to the College (28th November, 1836) was again celebrated by a dinner, at which 112 were present.

THE CENTENARY OF THE COLLEGE.

A Special Committee, of which Lord Meston is Chairman, has been appointed to consider the arrangements to be made for the celebration of the Centenary of the College. A full report of the proposals of the Committee will be issued shortly.

Arrangements are also in progress for the production of a History of the College at the time of the celebration of the Centenary. Sir Rickman Godlee, Bart., has accepted the office of Editor, and Mr. H. H. Bellot is Sub-Editor. Fellows and Members of the College who possess documents or records, or who are prepared to send recollections, relating in any way to the History of the College, are invited to do so as soon as possible. The preparation of the volume is in the hands of a special committee, of which the Provost is Chairman. All communications in the matter should be addressed to him.

STUDENTS' SOCIETIES.

The following brief *résumé* is based on the Society Reports received for the Session 1923-24, supplemented in some cases by more recent information :—

The Union Society and the Women's Union Society record another session of steady progress. The Inter-Union Standing Committee acts as a link between the two Societies, and has done valuable work in co-ordinating the social activities of the various branches of student life. In Foundation Week last March the play presented by the Dramatic Society was "The Merchant of Venice," the producer being Miss Marjorie Coutts. There was also a topical revue entitled "Stop Working," written by Mr. A. C. Griffiths and produced by Mr. W. G. Wilton, the local humour of which was much appreciated. The Foundation Oration was delivered by Mr. Hugh Walpole on "Modern Education and the English Novel." The Foundation Week Dance was held in the temporary Great Hall. A Debate was also arranged.

The Athletic Clubs of the Union Society have again met with much success. Three Association Football teams have been regularly placed in the field, and few games have been lost. For the second year in succession the final of the Intercollegiate Cup has been successfully contested. The Rugby Club has been very keen. There have been two fifteens in the field, the first winning 21 matches out of 28 played, and the second 9 out of 17. The final of the University Cup was reached, and the Engineers' Cup was for the first time won by the College Engineering Fifteen. Five members of the College

Club have played regularly for the University Fifteen, and on several occasions there have been more. The Cross-country section of the Athletic Club have done well, winning three matches out of five. Four members have run regularly for the University, G. F. McCormick and C. J. Hughes being in the first four home in the win against the Thames Hare and Hounds at Roehampton. The Boxing Club won the Intercollegiate competition once more, the standard of the Club being raised by the excellence of the instructor. The Rowing Club has three Eights in training. At the University Regatta, at Putney in May, the College had two crews in the Fours Final, the first boat winning by a length. There were five College men in the crew of the new University Boat "Unity." The Inter-Faculty race for the Donnan Challenge Shield was won for the fourth year in succession by the Engineers.

At the Inter-University Athletic Meeting in Manchester on May 16th and 17th, in which eleven Universities took part, London won the Inter-Union Athletic Challenge Cup with 39 points, College men taking their share in achieving this result. C. R. Farrell won the 100 Yards and the 220 Yards; E. H. P. Corbin won the Half-Mile; and C. O. Browne tied with Stallard of Bart's for the One Mile in the record time of 4 mins. 34⅜ seconds; G. F. McCormick of the College and Hospital came second in the Three Miles. At the University Sports, C. J. G. Hughes won the One-Mile; C. R. Farrell the 220 Yards and S. W. Allinson the 120 Yards Hurdles. The Rosebery Cup came again to the College, with Guy's as runners-up.

It will thus be seen that College men have taken their part in general University Athletics.

The Women's Union Society are gradually increasing the fund for the extension of their Athletic Ground, and their efforts in this direction are unrelaxed. Towards the total sum of £6,000 required, about £3,585 has been raised.

The College is also taking its share in the movements towards the promotion of corporate unity within the University, and in general student movements. I. O. T. Rhys is President of the University Union Society and H. J. G. Hines Secretary. Miss Kay Robertson, the President of the Women's Union Society, is Honorary Secretary of the National Union of Students.

The Faculty Societies have a record of good work for the welfare of the respective Faculties, both athletic and social. The Arts and Science Societies have organised Dinners and Dances, as well as meetings of a more serious character. The Engineering Society issues a Bulletin, and has arranged a programme of papers and addresses on technical subjects, as well as visits to works. The Annual Dinner of past and present members, which had been previously held outside the College, was held in the Refractory last year and again in 1925. Distinguished guests were invited on each occasion, and a conversazione in the new Enginering Building was held after dinner.

The number of special societies have been increased by the formation of a College and Hospital Anthropological Society.

The Dramatic and Literary Societies have both been busy, and have combined for one or two joint meetings and readings. In the First Term of the current session the Dramatic Society gave "Arms and the Man" (Bernard Shaw) and "The Constant Lover" (St. John Hankin). During the week 19th to 24th January, 1925, they produced some of Laurence Housman's "Little Plays of St. Francis" under the direction of Mr. W. A. G. Doyle-Davidson, with marked success. These performances were in aid of the British Society of Franciscan Studies and the St. Christopher's Working Boys' Club. In addition to the regular meetings of the Literary Society, study circles have been formed, one being for the reading of original verse, from which has resulted the publication of a book of College Verse and the issue of a rime-sheet.

The Critical Society has confined its studies to the three branches of the Fine Arts—the Drama, Music, and Painting. A joint meeting was arranged with the Dramatic Society for the first study, which was addressed by Miss Elsie Fogarty. There have been interesting speakers at all the meetings and the discussions have been keen.

In addition to meetings in College, many of which have been addressed by inspiring speakers, the Christian Union has taken part in vacation conferences, and has arranged prayer meetings, terminal services, and study circles.

The Archæological Society held six meetings last session, one of which was held jointly with the Anglo-Hellenic Society, when Mr. A. Wall of the Victoria and Albert Museum gave an illustrated paper on "Greek Embroideries." The Classical Society has organized lectures, a visit to the British Museum conducted by Dr. M. Cary, and a Social.

The Ancient History Circle and the Historical Society combined for a joint debate, in addition to which the Historical Society met the King's College Historical Society in debate. Both have held regular meetings, as well as walks and other social gatherings.

The French and German Societies have each included in their social meetings the production or reading of plays in the respective languages.

The Mathematical and Physical Society held seven meetings last session and elected thirty new members. The Distinguished Visitor's Address was given by Professor G. I. Taylor, F.R.S., on "Recent Work in Hydrodynamics."

The Botanical Society records a membership last session of 138. In addition to its own meetings, it held a joint meeting with the Chemical and Physical Society, and also one with the Zoological Society.

The Physiological Society had a membership of 125 last session; it holds regular meetings.

The Musical Society has arranged several Chamber Concerts, which have been greatly appreciated. The Choral Section meets regularly for practice, and is at present preparing for a concert in March.

The Old Students' Association and the Guild of Graduates continue the important work of keeping past and present students in touch with each other and with College and University movements. There is an encouraging increase in the membership of the O.S.A., and a new register of names and addresses has been issued. A dinner, a dance, a joint concert with the Musical Society, and a Hockey Match against the Women's Union Society Club have been organised. The Guild of Graduates again entertained the new graduates of the year at dinner on the eve of Presentation Day; 135 were present. An endeavour is being made, by co-operation with the Twentieth Century Society, to keep members in closer touch with University matters than has hitherto been possible.

The St. Christopher's Working Boys' Club has continued its work for the benefit of boys of the neighbourhood. A Gymnastic Display was given in the College Gymnasium on June 3rd before Field Marshal Lord Methuen, who addressed the boys. A Wolf-Cub Pack has been formed in the Club.

THE HALLS OF RESIDENCE.

Mr. S. J. Worsley resigned the Wardenship of University College Hall at the end of the Session 1923–24, on account of his marriage. Mr. E. H. Thierry, M.Sc., Assistant Lecturer in Chemistry, and formerly President of the Union Society, has been appointed to the Wardenship.

Miss Amy Attree, who held the post of Matron of the Hall since its foundation in 1908, has retired from that post on account of ill-health. Miss Brooks has been appointed as her successor.

University College Hall and College Hall, and their annexes, have been full for the greater part of the year, subject only to occasional vacancies.

Miss Mary Brodrick made two gifts of £50 last session for the benefit of residents of College Hall, and has this session made a further gift of £500, the income from which will be utilised to meet the needs of Students. The financial position of the Hall at the end of last session was sufficiently satisfactory to permit of a slight reduction in the fees for residence. Miss Dorothy Bishop has succeeded Mrs. Shackle as Principal's Assistant.

THE CRABB ROBINSON FUND.

During the financial year 1923–24, the following grants were made from the Income of the Crabb Robinson Fund :—

The Union Society—for general purposes, £75; for reconstruction and redecoration of Fives Court, £60; *The Women's Union Society*—towards Rent Charges on the Women's Athletic Ground, £50; *University College Hall, Ealing*—towards the Library, £10; *College Hall, London*—towards cost of erecting a stage, £10; *The Tutor to Women Students*—for payment of Railway Fares in connection with visits of Women Students of reduced means to her country cottage, £10.

The following grants have already been made during the current year, being chargeable against the income of 1924–25:—

The Union Society—towards upkeep of the Athletic Ground, £75; in connection with Fives Court, £30. *The Women's Union Society*—towards Perivale Sinking Fund, £50; towards new Boat, £25. *College Hall, London*—towards the Library, £10. *University College Hall, Ealing*—towards the Library, £10; *Tutor to Women Students*—for payment of Railway Fares in connection with visits of Women Students of reduced means to her country cottage, £10.

THE PEEL FUND.

The income of the Peel Fund was expended in grants for the purchase of books, etc., made to the following Institutions:—

East London Nursing Society, Queen Victoria Street, £5; Club and Literary Institute, Chesham, Bucks, £5; Naturalists' Society, Letchworth, Herts, £5; Red Triangle Club, Portland, Dorsetshire, £5; Mechanics' Institute, Appleby, Westmorland, £5.

UNIVERSITY OF LONDON, UNIVERSITY COLLEGE.

SCHOOL OF LIBRARIANSHIP.

DIRECTOR'S REPORT

SESSION 1923–24.

The total number of admissions to the School this Session was 80 (37 being new entries), composed of 49 full-time and 31 part-time Students; 6 Students entered for only part of the Session, and 6 others withdrew from the School through illness or for other causes. This is the smallest number enrolled during any of the five Sessions since the School was instituted, the maximum number admitted in one year being 106, in the Session 1922–23, when an unusual number were enrolled for single subjects or for short periods. It should be borne in mind in regard to this point that the selection of Students by written examination, etc., has become more and more stringent, as is necessary in view of the keener competition for posts in libraries. Of the 80 Students in the School, 13 were graduates and 19 had matriculated.

At the examination in June, 18 Students passed the First Part of the Diploma Examination, and 16 passed the Final Part, among the latter being two Students who, as graduates, took the entire course in one Session; 4 Students were referred in one subject and will sit again in June 1925. These are the best Diploma Examination results hitherto attained. 25 Students other than those passing in Part I. or Part II. of the Diploma Examination won 56 sessional certificates, and 5 obtained 7 certificates of the Library Association.

The Sir John MacAlister Prize for the best two years' work was won by Mr. P. B. James, who had held the Exhibition in the School for two years; and the Director's Prize for the best work in Book-Selection was won by Miss Margaret S. Demchevsky.

The only new feature in the School routine this Session was the transfer of the teaching in Bookbinding to the Central School of Arts and Crafts, where the Students had the benefit of lectures and demonstrations by Mr. Douglas Cockerill. The experiment was in every way satisfactory.

During the vacations most of the Students did spells of practical work in public and other libraries, and at the present moment a large group of Students are engaged in re-classifying and re-cataloguing the Library attached to the School; 6 Students also have been engaged the whole year, as Student Assistants, in various libraries; these, of course, do not include a number of Library Assistants who are taking two or more subjects in the School as part-time Students.

The thanks of the School of Librarianship Committee are again due to the University Examiner in Literary History and Book-Selection, Mr. G. F. Barwick, late Keeper of Printed Books at the British Museum, who has watched the work of the Students in Book-Selection during the Second and Third Terms, and has helped them considerably by his practical advice and suggestions.

The library of technical literature attached to the School is being steadily built up, and forms not only a collection of the highest practical value to the School itself, but also the nucleus of a bibliographical library, useful to the Library and Teaching Staff of the College.

26th June, 1924.

Report on the Fifth Summer School—July 1924.

The fifth Summer School, held at Brussels, July 14th to 26th, 1924, was the most successful yet organised by the School of Librarianship. The programme was largely new, the fresh items including courses of five lectures each, by Mr. Esdaile on the Cataloguing of Early Printed Books, by Mr. Jenkinson on Archive Management, and by Mr. Sanderson on the Reference Library and Inquiry Service, and a course of ten lectures by Dr. Jacques Verlant of the Bibliothèque Royale de Bruxelles on Contemporary French Literature. The Sessions took place at the Institut des Hautes Études de Belgique, by the courtesy of the Secrétaire General. 45 Students entered, but 2 were obliged to withdraw beforehand for urgent family reasons. They included 13 regular Students from the School of Librarianship; the rest were nearly all librarians, library assistants, or members of library committees, and came from the following countries:—England 24, Wales 4, Scotland 1, Ireland 6, America 3, France 2, Holland 2, Norway 3; contrary to expectation, there were no Belgian Students.

Satisfactory arrangements were made beforehand, largely through the assistance of Mlle. Sedeyn, Librarian of the University of Brussels, for housing the Students at maisons des étudiants, various hostels, and hotels. The charges were most reasonable, and the total cost of the fortnight in Belgium, including reduced travelling expenses, was very low. The Staff were accommodated at the Club de la Fondation Universitaire.

Visits were paid to all the chief places of interest in Brussels, including the Bibliothèque Royale, where Mr. Esdaile lectured on the organisation of the library; the Archives générales de Royaume, where the party was received by M. J. Cuvelier, and Mr. Jenkinson explained the working methods; the Musées Royaux du Cinquantenaire, where the Students were shown over the collections by M. Jean Capart, and the picture galleries, Palais de Justice, Cathedral, and other churches. There were also excursions to Antwerp, Ghent, Malines, Louvain, Bruges, Tervueren, Waterloo, and Rochefort, with visits to libraries, picture galleries, cathedrals, etc. Warm thanks are due to M. Verlant for his assiduous services as guide on these occasions, as well as for his admirable lectures on recent French authors.

The experiment of a Summer School on the Continent had very satisfactory results; apart from the general widening of experience, the Students had a valuable opportunity of seeing foreign libraries and studying foreign methods of working. A very full programme, including daily excursions, made considerable demands on their energies, but all thoroughly enjoyed themselves and look forward to another Summer School abroad in the near future.

APPENDIX VI.

REPORT ON THE BARTLETT SCHOOL OF ARCHITECTURE.

SESSION 1923–24

Day Courses.

During the Session 1923–24 the number of full-time Day Students registered in the School of Architecture was 55. The total registration of the School was as follows.—

	Women.	Men.	Total.
Full-time Day Students	14	41	55
Part-time „ „	2	5	7
Evening Design Class	0	17	17
Atelier	1	17	18
Town-Planning Dept.	1	22	23
	18	102	120

In addition to this total, some 30 students from the Slade School have attended lectures on the History of Architecture (Ancient and Classic).

At the opening of the Session, Mr. W. R Jaggard, F.R.I.B.A., was appointed to the lectureship in Building Construction vacated by Mr. Martin Briggs, and Mr. H. Warren Wilson, A.R.C.A., took up the duties of Art Master in the studios. Mr. Corfiato, S.A.D.G., joined the Department in December as Senior Assistant in place of Mr. Burford, who resigned.

It is satisfactory again to be able to report that all candidates entering for Part I. (Drawing and Design) in the Diploma and Degree Examinations have passed, a particularly good report of the work submitted for the Diploma being made by the External Examiners. These candidates are sitting for Part II. of their respective examinations. Three students from the School were accepted for the preliminary competition for the Prix de Rome, and one of these was selected to enter for the Final Competition. The Rome Prize was not awarded, but the candidate from the Bartlett School, Mr. M. A. Sisson, secured the Jarvis Scholarship.

Another important competition, which took place shortly after the period covered by this report, viz. the Victory Scholarship, open to students in all the Schools of Architecture of Great Britain, was won by a fourth year student of the School, Mr. C. H. Short.

During the Session special emphasis has been brought to bear on the constructional side of design, and an effort is being made to bring about a fuller comprehension of the scientific method of construction demanded by present-day requirements, and to achieve improvement in planning. In connection with this aspect of the work, a collection of original working drawings by contemporary architects is being formed, in order to familiarise students with various types

of modern architecture. Gifts to this collection have been made by several well-known architects, the most recent donation being that from Sir John Simpson of a set of working drawings prepared for the buildings at the Wembley Exhibition. This collection is useful for reference. In view of the necessity for combining engineering and architectural studies for modern work, I am much indebted to Professor Coker and the staff of the Engineering Department of the College for the additional help they have afforded this year. Apart from the usual work of Mr. Sprague, assistance in Reinforced Concrete Construction has been provided in the Studio by Mr. H. J. Collins, and a series of tests of materials has been arranged for Architecture students by Mr. B. Lloyd-Evans. This co-operation has been of great value. I have also again to thank Professor E. A. Gardner and Mr. Sutherland for help given in the subjects of Archæology and Acoustics respectively.

Visits have been paid on several occasions to modern buildings, as well as to the British and the Victoria and Albert Museums, while Mr. Mervyn Macartney granted facilities to the students to study the repairs now in progress at St. Paul's Cathedral. A generous invitation was received from Messrs. Manders Bros. of Wolverhampton, in accordance with which nearly the whole School visited their works at Wolverhampton on July 2nd, all expenses being borne by the firm. The party were shown over the works by a representative of the firm.

Two special Departmental Lectures were arranged during the Session; the first on November 12th, 1923, was delivered by Mr. Coleman, a prominent American specialist, on American methods of treating stone and artificial stone façades. The lecture was illustrated by lantern-slides and cinematograph films, and was much appreciated. On Friday, June 20th, Mr. S. Hurst Seager, a former student of the College, now practising in New Zealand, lectured on the system of lighting in the Art Galleries of Europe. Besides these strictly departmental arrangements, Mr. Jaggard, in collaboration with Mr. A. Belcher, gave a course of ten evening lectures in the Second Term on "Some Essentials of Modern Building Construction and Estimating and Pricing." This course was well attended by students of the School and by a fair number of outsiders.

Reports from the Old Students seem to show that the majority of those who have passed through the School recently are making a good start in the Profession. Several of the former students were engaged in the preparation of drawings for the buildings at Wembley, and two were acting as Clerks of the Works. A satisfactory tribute to the School training may be read in the numerous applications lately received from practising architects for men to take up positions as assistants on the conclusion of their courses here. In more than one case the request has come from a firm where students from the School have previously worked, and the demand is for more of a similar type.

A new feature of the School this session is the constant exhibition of students' work on view in the Museum. Under this new system, representative examples of students' work are hung every month in the Museum, affording an opportunity for comparison and criticism for the students, and an indication of the type and standard of the

current work to any visitor. A larger exhibition was arranged at the end of the term, in connection with the International Congress on Architectural Education, organised by the R.I.B.A. Illustrations of students' work have now been added to the new special prospectus, which, it is hoped, will bring the School more effectively before the notice of schoolmasters and parents.

The activities of the Staff have, as usual, not been entirely confined to the School. Apart from books published during the session, a list of which will be found elsewhere, public lectures have been given from time to time by Mr. Stratton and myself. I have lectured at Cambridge and Manchester Universities, at the Architectural Association, at Welwyn Garden City, at Bedford, and for the University of London Extension Board. Mr. Stratton has made two tours in Holland, in November and February, visiting several Dutch towns, where he lectured on Renaissance Architecture. In the Palace of Art, at the British Empire Exhibition, I was invited to undertake the preparation of the 1815 Period room, while Mr. Stratton was asked to undertake the 1750 room.

In conclusion, I must express the deep regret of the School at the death of two members of the Architectural Education Committee, which has occurred during the Session. In Mr. W. H. Ward the Department has lost a valued friend, whose interest in, and help given to, the School has long been appreciated, while the Department shares in the common loss suffered by the College and the University in the recent tragic death of Dr. Walmsley, the Chairman of Convocation. The School owes grateful thanks for the valuable addition made to the collection of architectural slides by the bequest of Mr. Ward's collection of slides illustrating French Renaissance Architecture.

The Evening School.

The Evening School has been carrying on its work throughout the Session with 17 students on the roll. Much good work is done in this class by students engaged in offices during the day, who are anxious to work up their testimonies for the R.I.B.A. Examinations. It is hoped to extend its scope next Session by adding a permanent course of lectures on Building Construction.

The Atelier.

The Atelier has had a record membership of 18 during the session. A special Jury of Practising Architects has been formed which meets periodically to criticise and assess the work done, and several subjects have been well worked out during the year. In the First Term, at the invitation of the Transport Board, a special design was worked out for a charabanc station, and the solutions to this problem were exhibited at the Transport Exhibition at Olympia. The best of these were also sent on exhibition to King's College during the Christmas vacation. It is hoped next Session to comprehend in the work of the Atelier the whole range of the R.I.B.A and other prize competitions.
